SUMMARY

Passionate and adaptable mathematics tutor with extensive international experience, having worked with students aged 12 to 19 in Italy, Portugal, Germany, and Australia with comprehensive mathematics instruction, from standard to extension 2 levels.

Holds 24 credits in anthropo-psycho-pedagogical and didactic methodologies and technologies, qualifying as a teacher in the Italian educational system. Certified to teach English through a TEFL Level 5 certificate.

Proficient in comparing and adapting to diverse educational systems, I have cultivated a dynamic teaching approach that incorporates the best practices observed across various countries. With a solid foundation in structural engineering and profound expertise in advanced mathematics, I am thrilled with the prospect of transitioning into a high school math teaching role, aiming to inspire and elevate student engagement and academic achievement in mathematics.

KEY SKILLS AND COMPETENCIES

- **Student Engagement:** Exceptional ability to connect with students, sparking interest and enthusiasm for learning through interactive and engaging teaching methods.

ACHIEVEMENTS

A standout achievement in my tutoring career has been earning the recurring trust of families globally, who initially doubted the effectiveness of a tutor not speaking their child's native language. Despite these challenges, I successfully fostered enduring educational relationships, demonstrating my ability to connect with and inspire students across language barriers.
