To whom it may concern:

I am a qualified TEFL Teacher with a 300-Hour Diploma from I-to-I and 3 years of experience with both local and international students, teaching English both online and offline.

I am passionate about teaching English and helping students to grow and develop on their journey of learning. I have experience preparing curricula and collecting content to use in both my online and offline classes. I have the experience needed to create various lesson plans and I am very creative, which helps to keep the students engaged. I can put together class discussions where students can ask questions and voice opinions and I also have the ability to observe the progress of the students. I have the flexibility to provide extra help for students that are having problems. I also have excellent time management skills that make it possible to handle all of the responsibilities this position requires.

I have lots of patience and I always treat students with respect and a friendly attitude. I also possess excellent interpersonal, communication, and organizational skills. I am reliable, punctual, and self-motivated and I know that I have the skills and experience you are searching for in an applicant

When it comes to my teaching approach, I really like to tailor my teaching approach to the individual student's needs. I really believe that every student has varying individual needs and I like to get to know them and tailor my classes to what works well for them.

Sincerely,

Shannice Reddy
