I utilized interactive teaching techniques, such as role-playing, simulations, and hands-on activities, to encourage active learning and the practical application of language skills.

I was committed to creating a positive, motivating, and inclusive learning environment that built students' confidence and interest in the English language.

I collaborated closely with students to help them achieve their language goals, monitored their progress, and provided personalized support to address any challenges they faced.

Relevant Experience

After working as a self-employed childminder for four years in Scotland, I moved to Sardinia and decided to become a teacher to share my passion for the English language with others.

Being a childminder sparked my love for teaching, as I enjoyed creating new activities to help children develop their skills. Although this type of work exists where I now live, it is not widely needed, so I chose to take my passion for education a step further and focus on teaching.

I began teaching as a native English-speaking teacher at a middle school in Oristano. Loving the experience, I decided to pursue a TEFL diploma to enhance my skills and open up more opportunities in the field.
