## ABOUT ME

I am a qualified EFL teacher with extensive experience in language instruction and student development. Holds a degree in Information Technology, a Diploma Level 5 in TEFL and a Diploma in Electrical Engineering, demonstrating a strong technical

---

---

## EXPERIENCE

---

I have teaching experience for eight years, providing both private one-on-one lessons and multi-student classes. My experience began at a tuition center, where I worked closely with students to enhance their understanding of key academic subjects. When the center closed, I took the initiative to continue supporting students by organizing tuition classes for nearby schools in the area. In addition to these structured sessions, I also offered free tuition classes at our local church, ensuring that education remained accessible to all students, regardless of their financial circumstances. My specialization lies in physics and mathematics, with a particular focus on guiding students of all grades. Through my years of tutoring, I have developed effective teaching strategies tailored to different learning styles, helping students build confidence and achieve academic success in these critical subjects.
