ABOUT ME

I was born in Warsaw, Poland and moved to Ireland when I was two. I learned Polish and English simultaneously with my parents teaching me Polish and learning English in everyday life and school. It made me realise the importance of the English language and also how empowering it is to be bilingual. I have always dreamed of helping others achieve this too.

WORK EXPERIENCE

MANAGEMENT TRAINEE

Enterprise Mobility | June 2024 - Present

- Designing and leading daily tasks through coordinating and managing the daily workflow. These skills directly apply to planning and delivering a well organised and structured class.
- Quickly adapting to dynamic situations and providing flexible solutions. This skill will help me respond better to the diversity of needs in a classroom setting.
- I took initiative in managing days where I lead team meetings and had to demonstrate confidence alongside effective time management. This skill will be vital in maintaining a well structured and paced class.

CLASSROOM ASSISTANT - CRECHE PLACEMENT

Kentstown Montessori | November 2018

- I completed a week long work placement at the Crèche I attended as a child.
- I supported the teacher with daily activity suggestions alongside helping with supervision of the children and organisation.
- I gained an early insight into what working with children would be like and it sparked my interest into pursuing a role in education.
