

MYStory

my name is keeyashni moonsamy. i am a human being looking for adventure, looking for something exciting. i am a designer with a passion for illustration and music. i always believed that colour is the key to happiness, but sometimes happiness can be a simple black and white picture. if i had to describe myself i would say i am a dreamer, someone who likes to learn and someone who wants to create something meaningful and beautiful even if it's as simple as a smiley face.
