

KITTY KEARNEY

TEFL certified seeking a teaching position.

I am goal oriented and results driven.

My interest in teaching English as a second language is because of my belief that everyone should have a fair chance to learn in a safe and educational environment. English is a very important language to have and as a native speaker qualified to teach this language I want to implement solid foundations and give students the opportunity a fair chance to learn.

I have a bubbly personality but I also strive on structure and routine and would implement the same principles with my students.
