

MICHAEL NAIDOO

South African

PROFILE

Passionate about pursuing a teaching career and eager to have an impact on international students in developing their understanding and depth of knowledge in English.

Willing to share knowledge with students after all knowledge is power. Continuously studying and learning to further my qualifications and pass it on to other students and to define the English language amongst international students as it is a profound corporate language.

SKILLS

Time Management; Organisation, prioritization, goal setting, planning, and communication had to be spot on and crucial to achieve outcomes thus time management was a top priority.

These were acquired during my employment with companies or in my own business.

Training: Train others and be trained yourself. Training is about people skills. enthusiasm for lifelong learning is the key to development.

Problem-solving: Follow the sequence for the best achievable results. ie; define the problem; brainstorm solutions; pick a solution; test the solution; review the results.

Communication; written, oral, non-verbal, active listening and contextual communication are all part and parcel of essential communication.

All the above skills have been obtained over the years in employment and exposure to different types of people and communications as well as generating incomes for companies and self.
