ABOUT ME

I hold a master's degree in public health and have recently completed a 168-hour course in English teaching, earning my Level 5 diploma, which I am passionate about.

I am an enthusiastic and motivated English teacher, inspired by the opportunity to help learners develop their language skills and confidence.

I enjoy designing creative and engaging lessons that cater to the needs of diverse learners, while fostering a positive and supportive classroom environment.

I work well in a team, valuing collaboration and idea-sharing to achieve the best outcomes for students. With strong communication skills, I can connect effectively with people of all ages and backgrounds.

Experience

I organize quarterly training sessions on medical specialty coding in addition to preparing and delivering one-on-one and group lessons to providers through online platforms (Zoom, Google Meet, Teams).

I have worked in collaboration with parents and music instructors to support the group, volunteering my time to assist in organizing performances and community events since the founding of the children's Morinkhuur (Mongolian traditional instrument) music ensemble Ajnai.

EMPLOYMENT

Boulder Medical Center

Certified Professional Coder (Multispecialty) / Internal Auditor – Remote

Boulder, Colorado, US, April 2022-Present

- Conduct internal audits of coded records to identify discrepancies, improve accuracy, and reduce compliance risks.
- Provide feedback and training to healthcare providers and staff to improve documentation quality and coding compliance.
- Review patient charts and documentation to ensure accuracy, completeness, and adherence to coding and billing standards.
- Review and interpret medical records and physician documentation to assign accurate ICD-10, CPT, and HCPCS codes.
- Stay updated on current coding guidelines, reimbursement changes, and industry regulations (CMS, AMA, and HIPAA)

Rocky Mountain Gastroenterology

Certified Professional Coder – Remote

Lakewood, Colorado, US, August 2019 - April 2022

- Review and analyze patient medical records and documentation from gastroenterology procedures to ensure accuracy and completeness.
- Accurately assign ICD-10, CPT, and HCPCS codes to medical records in compliance with federal regulations, payer guidelines, and organizational policies.
- Work closely with physicians, nurses, and billing staff to clarify documentation and resolve coding discrepancies.

Metropolitan Pathologists

Certified Professional Coder / Revenue Service Specialist

Lakewood, Colorado, US, December 2017 – July 2019

- Responsible for assigning ICD-10, CPT, HCPCS codes and modifiers for diagnoses and procedures utilizing encoding software and appropriate procedural, terminology, and health-related procedure books.
- Communicate with insurance companies on coding errors, billing, and manage the appeal process if necessary.
- Ensure compliance with all legal requirements regarding coding procedures and practice.
