Summary

As a teacher for several years, my role has varied from being responsible for the management of one classroom with up to 30 students in addition to managing and developing multiple student-led programmes and taking online classes using various platforms. My job has been varied and challenging and I have seen it all through the lens of Tutoring with a focus on the academic growth of every child. I am looking to progress into a career that incorporates the aspects of training and development, particularly as part of a new leadership team. I have keen interest in tutoring and shaping the future of the children. My specialty is introducing the concepts in an interesting way so that it is easy for children to understand and grasp the curriculum. I have around 20 years of online teaching and in person. I have also taught the children with special needs.
