counselling (2016 - 2020)
BA Honours in Psychological counselling
(2021- 2022)

TEFL : 160-hour master Tefl English teaching course

A bit about me:

I am a highly compassionate and dedicated professional with a bachelor's degree in psychology. The focus of my degree has been on counselling and child development. I am passionate about positively impacting the lives of young individuals through teaching, guidance, and support. I

possess a deep understanding of child development and effective communication strategies. Along with my academic abilities I have the proven ability to create a nurturing and inclusive environment that fosters growth, learning, and emotional well-being. Excellent interpersonal skills, with the ability to build strong rapport with children, parents, and colleagues.

Having only recently completed my 160-hour advanced Tefl course I am enthusiastic to start teaching English online to children. I plan on delivering engaging and interactive lessons while creating a fun and supportive learning environment, with the adaptability to cater to the unique needs of students and their cultural backgrounds.

I am an organised, friendly, well presented, and creative person who has always had a passion for working with children. Recently, a friend of mine told me about Tefl and suggested it would be a great match for me, which I agree! I live in Cape Town; South Africa and my native language is English. I am excited about being able to start my teaching career, to have the opportunity to positively impact students and create lifelong learners!

For the last 6 years (2016-2022) I have been studying towards a degree in psychological counselling. I have a BA in psychological counselling as well as my most recent degree – a BA honours in psychological counselling. Due to the nature of being a full-time student I began to work parttime. I am currently searching for work that allows me to work from home/online while I attempt to acquire a master's degree in psychology.
