PERSONAL STATEMENT

I am a creative, fun and energetic women with a passion to educate. I have a Bachelor of Laws degree but because of my passion to teach, I have chosen this path because I believe that the world can only become a better place if we are all connected, and we can only be truly connected if we are able to communicate. Understanding that English is the universal language, is why I want to contribute to the world by becoming an English teacher.

I love to travel the world and learn about different cultures and food, and I chose to move to Asia because of its rich culture, very kind people and interesting history, and there is no better option that to travel the continent whilst teaching English. I am looking to broaden my horizons in Cambodia, Vietnam, Thailand, and Indonesia

I am kind with excellent interpersonal skills, and I believe that I will be a great teacher and a good asset to the company whenever given the opportunity.
