OBJECTIVE

They say people with the name 'Julia' are often successful and accomplish material dreams. Strange enough I'm quite excited for this next chapter in my life. The chapter where I learn the good from the bad. The chapter which could lead me one day to my success. Even though I do not have many years' experience, I'm willing to learn, I am willing to admit to my mistakes and I'm willing to grow from where I started. Even though I have my own desires, at times it's good to put other people's needs before mine. I will welcome every person with a smile from when I'm at work to casually walking in the street not because I feel obliged to but because it's who I am. I am hoping to help your business grow and to grow with it as well.
